Summary

With a background in graphic design and frontend development, I specialize in creating secure, performant, and accessible web experiences. I also have extensive experience in DevOps engineering and system administration, focusing on building reliable infrastructure, optimizing CI/CD pipelines, and ensuring system security.

Passionate about open-source, I contribute to projects as a Fedora Linux Ambassador and core member of Open Source Design. As an active community organizer, I've led tech events like OSCAL, LibOCon, and Linux Weekend. I also share insights on privacy, security, and open-source topics through public speaking, workshops, and articles, advancing transparency and human rights through technology.

Experience

GlobaLeaks   January 2025 - Present
DevOps Engineer
🔗 https://globaleaks.org

- Building secure, reliable infrastructure and optimizing CI/CD pipelines for whistleblowing platforms and human rights initiatives.
- Collaborating with the CTO, team, and community to improve software and usability.
- Supporting users with technical assistance, documentation, and training.
- Promoting open-source collaboration and mentoring a fully remote team.

Rubik Technologies   October 2023 - Present
DevOps Engineer
🔗 https://rubik-technologies.com/

- Understanding customer requirements and KPIs to guide projects.
- Implementing and managing development, testing, automation tools, and infrastructure.
- Defining processes for development, testing, release, and support in DevOps operations.
- Building automated workflows, CI/CD pipelines, and improving processes continuously.
- Ensuring cybersecurity through vulnerability assessments and risk management.

MAGOWARE   February 2022 - January 2024
DevOps Engineer
🔗 https://magoware.tv

- Understanding customer requirements and KPIs to define DevOps processes.
- Implementing and managing tools, infrastructure, and automation workflows.
- Ensuring cybersecurity with continuous vulnerability assessments and risk management.

Tahoe-LAFS   May 2021 - April 2022
Web Developer Contractor
🔗 https://tahoe-lafs.org

- Developing an asset management strategy, policy, and brand identity.
- Building a new online presence, website, and updated API.
- Organizing inventory and tracking progress via Trac tickets.
- Designing wireframes, mockups, and social media assets with guidelines.

Ura Design   January 2017 - Present
Lead Frontend Developer & System Administrator
🔗 https://ura.design/en/

- Developing responsive, stable websites and apps from mock-ups using HTML, CSS, and JavaScript.
- Ensuring performance, troubleshooting issues, and supporting clients.
- Collaborating with the team throughout all project phases.

Freelancer   September 2016 - Present
Self-employed
🔗 https://lushka.al

- Analyzing marketing and user experience challenges to create on-brand, goal-driven design solutions.
- Collaborating with cross-functional teams to optimize user experience and ensure brand consistency.
- Developing creative concepts, implementing responsive, secure websites and apps, and maintaining server and network systems.
- Editing media for web, print, and digital use, while ensuring uptime, performance, and compliance.

Education

Polytechnic University of Tirana   Bachelor of Science

Computer Engineering

🔗 https://fti.edu.al/

Undergraduate education, as well as research and development in the fields of software engineering, object-oriented programming, computer architecture, design of digital systems, utilization systems, distributed and grid systems, network technologies and databases.

Volunteering

Open Source Design   February 2018 - Present

Core member

🔗 https://opensourcedesign.net

The Document Foundation   October 2016 - September 2020

Member

🔗 https://libreoffice.org

Open Labs Hackerspace   January 2016 - September 2023

Member   Tirana, Albania

- Collaborated with the local municipality to implement open source solutions in the administration
- Organized and volunteered in more than 40 events, locally and internationally, related to technology

Fedora Project   May 2018 - Present

Ambassador

🔗 https://getfedora.org

Certifications

General Training   May 2022

IELTS

🔗 https://ieltsregistration.britishcouncil.org/

Score: 8.5 out of 9, CERF Level C2

Test Report Form Number 22AL000499LUSA001G
